### *Vanessa Kandiyoti*

Vanessa Kandiyoti was raised in a Turkish home filled with superstition and beautiful traditions, and makes jewellery for women keen to marry the spiritual and the beautiful in their own lives. Inspired by a backpacking adventure to Latin America, Kandiyoti developed a love for precious stones, which she bought and traded on her trip, and returned to create her own collections - the latest of which takes inspiration from the body's seven chakras. She also hosts life-coaching sessions for entrepreneurial women in search of advice and guidance.
